PROFILE

Cybersecurity undergraduate at Astana IT University combining AI/ML research, educational management, and community leadership. Former Academic Director supervising 5–6 teachers; founded a 30+ member technology community and led initiatives raising KZT 150,000 for charity. Interested in building practical AI-powered products and creating measurable impact.

LEADERSHIP & EXPERIENCE

Founder & President | Women in IT Club, Astana IT University | 2024–Present

• Founded and grew a 30+ member technology community; organized workshops, bootcamps, guest lectures, and charity initiatives.
• Managed event budgets, speaker outreach, partnerships, and coordination; raised and donated KZT 150,000 to Mereke Foundation.

Academic Director / Head of Teachers | Universum | 2023–2024

• Supervised a team of 5–6 teachers and coordinated academic operations and teaching activities.

English Teacher | Universum | 2021–2023

• Delivered English-language instruction and supported student learning and engagement.

English Speaking Club Host

• Facilitated English-language discussions and speaking activities.

PROJECTS & RESEARCH

TapDoc | AI-powered Telegram document assistant

• Built a document question-answering workflow with file upload, chunking, retrieval, user isolation, and document management. Technologies: Python, Telegram Bot API.

Adversarial Robustness in Semiconductor Inspection | Undergraduate research (ongoing)

• Investigating physical adversarial vulnerabilities and mitigation in edge-deployed convolutional neural networks for semiconductor defect inspection.

Publication | Central Asian Scientific Journal, 2026

• Co-author, *Machine Learning-Based Detection of Security Vulnerabilities in Source Code*, Vol. 2, Issue K(29). Co-authors: Moldir Omar and Ayaulym Talgatova.

EDUCATION & RECOGNITION

Astana IT University | Bachelor’s studies in Cybersecurity

Tech Orda | Data Analytics educational grant recipient

SKILLS

Technical: Python, SQL, machine learning, deep learning, NLP, computer vision, Burp Suite, Wireshark, Nmap.
Business & leadership: Team supervision, budgeting, partnership development, event management, stakeholder coordination, research and analysis.
Languages: Kazakh, Russian, English; Turkish (intermediate).
